Converge Technology Solutions and Zerto Present "A Winning Approach" to Jump-Start Your Business Continuity Strategy and Plan

Converge and Zerto have now teamed up to offer an integrated approach to identifying and fulfilling your IT resiliency needs. This approach couples determining your recovery requirements with exploring and selecting cost effective and state of the art solutions.

In exchange for the opportunity to share our winning game plan, for participating you will receive a free meal e-card for lunch on us.

Join us on June 3rd to explore how this approach can benefit your decision-making process with the objective to save you time and money. **Discussion topics include:**

• A simplified BC/DR requirements development process
• Exploring potential recovery options
• Cost / benefit assessment
• Automated short term recovery
• Automated return to site
• Automated DR testing w/o production impact
• DR test preparation and reporting

Enjoy an e-giftcard for lunch on US!
