

## RECOVERY SERVICES

### Highlights

- Tiered solutions for all platforms
- Cost-effective solution options
- Tape-based or replication solution
- Easy test scheduling

#### **Availability, Speed, Peace of Mind**

When disaster strikes, you depend on equipment availability and quick response time. We specialize in these key deliverables to help your business recover and restore functionality following a disaster.

Converge tailors a program to your location, applications and system configurations. You get the equipment you need, when and where you need it. With our wide range of services, you can select the option that best aligns with your business needs.

**RES-Q™ 360 Quick Ship:** Three to five (3-5) Day Delivery SLA. We deliver equipment to your site for recovery or testing. Simple and affordable Disaster Recovery for your mainstream Data Center equipment - and you can combine it with other recovery service offerings.

**RES-Q™ Basic and Advanced:** Adjustable delivery SLA's. We deliver equipment to your site for recovery and testing. We provide Quick Ship services that compliment existing Tier 1 recovery solutions, as well as supports one to five (1-5) day RTO's.

**RES-Q™ Center-Based:** Get conditioned floor space for your recovery or testing needs - a great option for organizations that require a hot-site environment or fixed work-group positions.

**RES-Q™ DR Testing:** Our program allows you to test your recovery strategy. We supply enterprise-class hardware from virtually any manufacturer that can be rented for as short as a week or as long as 12 months. It is your business and your decision.
