

## VEEAM CLOUD CONNECT - OFFSITE BACKUP & REPLICATION

By utilizing Veeam's Backup and Replication Availability Suite v10 with many new features, our Converge Enterprise Cloud can provide you:

- Reduced cost by leveraging your existing Veeam licensing
- SSL based end-to-end encryption security, eliminating slow, VPN Tunnel-based security
- Incremental backups and optional WAN acceleration to help support large data volumes
- Fully integrated backup repository with easy-to-use restoral functions and capabilities
- Ease of use – just pick your storage requirements and storage target
- No infrastructure expenses and additional licensing requirements to support Veeam Cloud Connect
- Optional recovery infrastructure available for complete DR solution

### Additional Features

- NAS Backup
- Object Storage Repository
- Commutable Backups
- Office 365 Backup Protection
